

NON WOVEN POLYESTER ROLL OUT MAT

Hotels & Resorts, Counties, Cities, Towns, National & State Parks, other government and non-profit organizations officials, as well as any individual willing to increase accessibility to their beaches should consider providing our ABA / ADA beach compliant AccessMat® system to comply with the Architectural Barriers Act and the Americans with Disabilities Act (ADA) guidelines.

AccessMat® Beach Accessability Mats have been specifically developed for use in permanent or temporary recreation access applications. AccessMat® is a portable and removable rollout access route that can be used in a multitude of applications for individuals of all abilities (pedestrians and wheelchairs access), as well as strollers, and more particularly in beach environments.

AESTHETICALLY PLEASING

Visually attractive, the blue color of the AccessMat® provides a surface that is highly visible, delineating the route to access recreation areas for people with visual impairments, while the brown color perfectly blends into the landscape. AccessMat® can be offered in 3', 5' or 6' width by 33', 50', 75' and 100' length and is available in blue or brown color.

AFFORDABLE

Designed & finished in the United States, starting at \$7.35 per square foot AccessRec LLC provides the most affordable way to create a beach access route. Especially when compared to the costs required in frequent replacement and extensive installation, maintenance or repair of our competitors, AccessMat® is the most economical solution on the market.

COMFORTABLE AND SAFE

Developed specifically for pedestrian traffic, AccessMat® provides the friendliest surface for barefoot beach goers. Wherever a water pervious, enhanced grip walkway access is required AccessMat® Beach Accessibility Mat® is the solution. AccessMat® polyester material provides the safest edges that do not require secondary finishing.

This highly reduces the risk of injury to bare feet or cutting your hands when installing or removing AccessMat®. Our AccessMat®'s cool surface lends to the barefoot users' comfort, especially on those hot, sunny days!

QUICK INSTALLATION & MAINTENANCE

Two people can install a 5' x 100' section in less than 10 minutes.

Minimal maintenance - it can be cleaned by use of a broom, blower, or pressure washer-sand goes through the permeable structure of the mat and does not get stuck under the surface of the mat.

ENVIRONMENTALLY FRIENDLY & RECYCLABLE

This environmentally friendly product is easily installed and removed per environmental regulations. The UV stabilized polyester material is recyclable after use reducing its environmental impact.

DURABLE & LIGHTWEIGHT

AccessMat® will not fray on its edges nor show any kind of wear & tear on the surface during normal use and proper maintenance.

The durability of construction and portability of the product make it the perfect solution for providing accessible beach pathways. Utilizing the benefits of polyester ensures that rigidity and strength are preserved over soft sand surfaces, while the non-woven polyester material is able to contour to undulating surfaces. Weighing only 0.42lbs/sqft AccessMat® can easily be carried by 1-2 people. At the end of the season simply roll back your AccessMat® and store it until the next beach season. Unlike some of our competitors' products, your mat will remain as lightweight as the first time you put it down, as sand does not get stuck under the flat polyester surface. AccessMat® comes with a 2 yrs. warranty
